PROJECT

Tweet based Website Build: Front-end (React) Feb-May 2025

- Developed the front-end of a tweet-based website using React, focusing on displaying real-time data about natural disasters.
- Implemented interactive charts and graphs for visualizing disaster trends, enhancing user understanding.
- Integrated APIs to fetch and display live tweets, ensuring seamless data rendering and user experience.

Portfolio Website Build: HTML & CSS Feb 2025

- Designed and developed a responsive portfolio website using HTML and CSS, showcasing projects and skills.
- Deployed the website through GitHub Pages, ensuring seamless accessibility and version control.
- Optimized the site for cross-browser compatibility and mobile responsiveness to enhance user experience.

Instagram Post AI Analysis: Automation Jan 2025

- Built a Python automation tool using Selenium to scrape Instagram influencer profiles and download post thumbnails.
- Integrated OpenAI's CLIP model to analyze images and generate relevant hashtags automatically.
- Automated image renaming, sorting, and categorization into folders based on AI-generated hashtags.

Clinic Website Design: UI/UX Sep - Dec 2024

Healing Hands Walk-in Clinic

- Designed an accessible, ADA-compliant website in Figma, focusing on intuitive user experience and responsive design.
- Created a custom logo and cohesive brand identity, reflecting trust and care values.
- Collaborated with a developer to implement designs using HTML, CSS, and JavaScript, delivering a platform praised for simplicity and accessibility.

WORK EXPERIENCE

Web-based Product Management Intern

5 Talents Education, Carrollton, TX Jan - May 2023

- Led project planning and execution, contributing to successful product launches.
- Leveraged product management tools(Systeme.io) to analyze user behavior, implementing data-driven improvements for a more user-centric experience.
- Designed and executed a comprehensive, cross-platform social media strategy to boost user engagement and drive product adoption.
- Optimized the product management cycle through various software solutions, collaborating with cross-functional teams to create intuitive UI/UX design enhancements using Canva.

Websites consulting Intern

Headers, Seoul, South Korea Sep - Nov 2020

- Ensured web accessibility, web standards compliance, and cross-browser compatibility of 100+ city governments and official bank websites.
- Identified and reported 40 error items and plug-in issues on requested websites, reviewing HTML/CSS code issues, enhancing user experience.
- Collaborated on website optimization for improved loading speeds and search engine visibility.
